MINING, BUSINESS AND STOCKS.

TINTIC PROPERTY CHANGES HANDS

James C. Jensen of Heber Purchases Ground of Lower Mammoth Extension Mining Company.

At a meeting of the stockholders of the Lower Mammoth Extension Mining company yesterday, the action of the company yesterday, the action of the board of directors of the company in selfing the remaining property of the company to James C. Jensen of Heber was ratified. The company sold its Anita Lode mining claim, known as mineral survey No. 4536, for \$4.00. Other pieces of property of the company have been sold from time to time until the company is no longer the owner of troperty.

The board of directors of the comthe board of directors of the com-pany was also instructed to disincorpo-rate the company and wind up its af-fairs. The board of directors also post-ed a dividend of 1½ cents a share, pay-able Oct. 20, books to close on Oct. 15. It is probable that after paying all the necessary expenses, the amount remain-ing for the stockholders may be greater than the dividend and an extra dividend will be declared.

The company was capitalized with 200,000 shares. J. R. Murdock of Heber City, president of the company, is the owner of 76,000 shares.

STOCKS SLOWER BUT STRONGER.

Carisa is Sent Lower on Local Mining Exchange This Morning.

The leaders in the local stock market were stronger today, while the market throughout was slow. The volume of business fell off greatly and was much lower than on yesterday. Carlsa was trimmed up by the market this morning and from 80 cents the stock was knocked down to as low as 74 cents. It was at 75 cents at the close of the market.

market.
Colorado remained unchanged today at the lowest price it has reached this year. It sold at \$1.49 and 1,100 shares changed hands at that price. Iron Blosson was somewhat stronger this morning and developed an upward tendency. Sloux Consolidated developed the greatest strength it has shown in several days. The stock was strong around 70 and 71 cents, and 9,500 shares were disposed of.

were disposed of.
Of the smaller stocks Grutli and Bul-lock were the most active. East Tintic Development and Grand Central are

The total number of shares disposed of this morning was 57,970, while the amount represented by the transactions

On the curb market there was but little trading. Mammoth sold at \$1 and \$1.02%. Ohio-Kentucky was of-

ver Island Property to Ship Some

High Grade. I. E. Pratt, secretary of the Silver Island Coalition Mines company has just returned from the property. He declares that the company has now \$00 sacks of high grade ore awaiting shipment and within a few weeks the first of the ore will reach the Salt Lake smelter.

According to Mr. Pratt the ore will According to Mr. Praft the ore will average at the present price or metals, \$111.64 in silver; \$30.85 in lead; \$15.45 in copper and 20 cents in gold. The company has also found considerable high grade ore in its Emancipator claim at a point 606 feet south of the Emancipator tunnel and also 156 feet south of the runnel. south of the tunnel.

SAYS PIOCHE WILL BOOM. Strike Reported in Old Foster Prop-

erty in Pioche District-

erty in Pioche District.

According to a letter received this morning by Manager Owen A. Balley of the Demijohn company, a strike of high grade has just been made at the Foster property close into the town of Pioche. The letter says that four feet of ore has been found under the lime hill and that it is believed that it is an extension of the famous old Mesadow Valley vein from which millions were shipped in the early days. Alex Colbath of Salt Lake City is the superintendent of the property. He has interested D. Houtz of Provo in the property and since early in the year they have been pushing work.

It is further declared in the letter that thinks are on the move in Ploche as they never have been hefore. The starting of work on the Obio-Kentucky and the Nevada-Utah properties has added new life to the community and more work has been sarted on other

added new life to the community and more work has been started on other

At the Demijohn the drift on the 200 foot level has run into shale, man-gunese and decomposed lime such as has been the capping to the ore in other parts of the mine. The manage-ment feels confident that within a few days it will hear of the opening of a new vein of ore in this promising little

At the Pioche Golden Prince the onpany has installed a new 60-horse-ower engine and this is being used on ne compressor while the old 25-horseover gasoline engine is being used for noising. The property is pushing work with greater energy than ever before, ad it is declared that some big things may be exepected from this property.

SIERRA IN GOOD ORE.

Company is Confident of Breaking Into Large Body.

The Sierra Mining company, which is operating with quite a force of men on the Cook property, joining the old Miller estate in American Fork canyon, has encountered about 2 feet of pay ore in a drift run from a winse which has been suck in the main working funnel, and the management is confident that one of the large characteristic ore badies of the section is about to be broken into. Assays from the ore encountered give 36 per cent the ore encountered give 30 per or lead, 30 oz. silver and \$2.40 gold.

OHIO MILL TO START WITHIN THREE WEEKS

Trestle Bigging Up and Half of the Plant Will Be Ready for Ore When Trestle is Finished.

Work is being pushed at the Ohio Copper company mill at Lark to have the machinery of the first half of the plant in readiness to be placed in commission as soon as the trestle work is finished connecting the car tracks from the mine with the mill. This it is exirco weeks.
The last two cars of steel necessary

to complete the trestle work are on the way to Salt Lake City and have passed through Denver, so that it is a matter of but a short time before they will reach Salt Lake City. The rigging for the trestle work is all up in readiness for the steel.

the trestie work is all up in readiness for the steel.

When Colin McIntosh, general manager of the Ohio Copper company was at the plant Tuesday the men were just finishing up the transformer house. This will be the completing link for the starting of the first two units of the plant. With half of the mill completed the company will he able in a few weeks to be handling over 2,250 tons of ore a day.

While the work on the mill has been progressing the work at the mine has been pushed just as rapidly and the property is in shape to send out a large tonnage at the start. The management believes that by the last of next month the company will be earning money above the running expenses.

Work has been started on the third unit of the mill and before the end of the year at least one of the units will have been finished. When the mill is completed it is believed that it can handle in the neighborhood of 4,700 tons of ore a day.

New cars have been ordered for use in the Mascotte tunnel and some of

one of ore a day.

New cars have been ordered for use in the Mascotte tunnel and some of them are now at the mine. Everything is being placed in readiness as rapidly

The starting up of the mill means that another dividend payer will short-ly be added to the already large num-

with its application to patent its claims in Beaver county. According to Manager L. H. Block work was discontinued sometime ago on account of possible conflicts. This has now been settled and the company is in a position to preceed.

It is believed that the lowest cost It is believed that the lowest coat record of the production of copter that has ever been made by a mining company will be made for the quarter ending today, by the Nevada Consolidated. It is understood that the 15.000,000 pounds of metal produced for the quarter will average close to 5 cents a pound. This beats the Utah Copper record of a little better than 9 cents a pound. This quarter it is believed that the Utah Copper has lowered its cost to close to 8 cents a pound.

Articles of incorporation for the Greenhorn Mining company were filed yesterday with the secretary of state. The company is capitalized at \$100,000, with shares at 10 cents each, half of which is preferred and the other half common stock. In the treasury are placed 352,000 shares. The company will exploit 12 claims in the Ohio district, Plute county. The officers are: James Courtney, president; A. D. Hardy, vice-president; E. M. Neher, secretary and treasurer. The officers with A. McCurtain, B. F. Moss, Joseph Wahl and William Lambert compose the directorate. ompose the directorate.

HENEFER COMPANY TO INSTALL WATERWORKS

(Special Correspondence.) (Special Correspondence.)

HENEFER, Summit Co., Sept. 28.—A company has been formed here with a capital of \$10,000 to lay a pipe line to furnish spring water for the town. The spring has been secured, and the first officers elected as follows: Alma E. Richins, president; R. A. Jones, secretary, and J. W. Richins, treasurer. It is the intention of the company to rush the work this fall.

The copys have nearly all been se-

he work this fall.

The crops have nearly all been seured: some little damage was done
y excessive rain, in August and early
a September, but it might have been

UNION PACIFIC

New York. Sept. 30 .- The opening dealings in stocks were active but prices moved only slightly from last night's level. Mixed gains and losses were shown by all the active stocks. Pittsburg, Chicago, Cincinnati & St. Louis advanced I and Republic Steel and Westnghouse Electric %. Persistent selling of United States Steel coupled with fur-ther liquidation in Wabash preferred sent prices in some instances well below yesterday's closing, Wabash preferred losing 2, Denver & Rio Grande, United States Steel, Amalgamated Copper, Pressed Steel Car and American Wool-

The bulls then took up Union Pacific

The bulls then took up Union Pacific and Chesspeake & Onto and forced an advance of 1% and 1% respectively which resulted in most stocks getting up a fraction above tast night. Some of the leaders did not noted and the market was trregular at 11 o'clock. Westinghouse Electric first preferred gained 5 points. Mackay Companies 1% and American Sugar I.

Electric first preferred gained 5 points. Mackay Companies 1½ and American Sugar L. Chesapeake & Ohlo's further rise to 50% and Union Pacific to 210 were supplemented by 1-point advances in Atchison and Norfolk & Western. The list was unresponsive and later sagged back. Louisville & Nashville lost 1½. Reading. Western Maryland Certificates, American Ice. American Cotton Oil and Central Leather preferred 1. United States Leather preferred advanced 1½ and International Harvester preferred 1½. Bonds were firm.

The market worked gradually up to the high level for the Pacific stocks, Union Pacific crossing 210. Speculation was dull at times to the point of stagnation, the market showing the absence of many traders at the military parade.

Union Pacific, Southern Pacific and United States Steel monopolized the limit dealings and sold at their best prices for the day. The rise ran to 1½ in Southern Pacific and Union Pacific. Cheveland. Cincinnati, Chicago & St. Louis and American Car preferred also advanced 1 and International Harvester preferred 3. Delawafe & Hudson was 1½ lower and Eric first preferred 1.

The market closed casy. The advance in Union Pacific was pushed a liftle further. United States Steel went a fraction higher than last night and Canadian Pacific rose 1. Selling was then renewed and prices receded, in some cases touching low levels for the day. Pennsylvania and Colorado Fuel fell 1. Northwestern 1½ and Pullman 4½.

Money on call rose to 4 per cent, the highest rate since early in 1908.

PRODUCE.

CHICAGO.

Cheage, Sept. 30.—Trading in the wheat oit early was dull and prices held fairly tendy. The September delivery display-d relatively more strength than the depit carry was dull and prices field fairly steady. The September delivery displayed relatively more strength than the deferred months owing to buying by shorts. That option opered unchanged to % higher at 1.06 to 1.06%, sold off to 1.05% and then railled to 1.06%. December opened a shade to 1.06% becember opened a shade to 1.06% becember opened a shade to 1.06% becember opened a shade to 1.00%. Corn prices declined still further on account of renewed profit-taking brought out by the favorable weather for the maturing of the new crop. December opened is to 14 lower at 58% to 58% and sold off to 58.

Excited covering by shorts in September oats caused wild fluctuations in the price of that option at the start. First quotations ranged between 46 and 48, again of 11% to 31% compared with the previous close. The volume of trade, however, was small on account of a scarcity of offerings. The deferred months were inclined to drag on account of realizing sales. December opened a shade lower at 33%, sold at 38% and then caused off to 38%.

Provisions were firm because of buying by shorts bassed on a falling off in hog packing compared with a year ago. Prices at the opening were 2½c, lower to 15c. higher.

During the final half hour, September made a sensational advance from around 1.07 to 1.20 on efforts of shorts to cover. The price immped by leaps of a cent or more. Future deliveries were not affected to any extent by the bulge in the current month. December advanced to 1.00%. The close was at a gain of 14c, for September, the final figures being at the top and at a loss of 14c, for December, last quotations on which were at 20% and 8.

Corn—September dropped 3½c, in the final half hour on profit-taking and De.

Corn—September dropped 3%c in the final half hour on profit-taking and December sold off from \$5% to 57%. CHILD'S BODY FOUND IN PARLEY'S CANYON

Sheriff Investigating Discovery Made By W. H. Hennefer Yesterday.

The mystery attaching to the discovery yesterday of the body of a male child barely hidden under a little mound of earth near the mouth of Parley's canyon will be probed by the county attorney's office and a coroner's

The mite of a body nearing a state of decomposition, was discovered yesterday afternoon by W. H. Hennefer, Jr., a photographer, whose work had taken him out in the valley near Parley's canyon. While traveling along the path about a mile west of the en-trance to the canyon, Mr. Hennefec was attracted by a small piece of cloth-While traveling along was attracted by a small piece of clothing appearing from beneath the seeming fresh mound. Stopping and grasping the cloth, and as the dirt fell away the body of the infant was revealed.

Mr. Hennefer, after his discovery, hastened to a telephone and communicated with the sheriff's office. Deputy Sheriff Axel Steele was sent out and brought the body to the city, giving it into the care of Evans' undertaking establishment.

tablishment.

The lifant has the appearance of having been but a little over a week old at the time of its death, and that it had been dead for at least several days. The body showed no marks of violence, and there was nothing about the little wrapping of cloth to indicate its identity.

The county attorney's office with the sheriff will endeavor to unearth the facts of the child's death and the parent or parents who chose the out of the way spot at Parley's canyon to conceal the body. Under the direction of the county attorney, Justice of the Peace Bishop as acting coroner, will impanel a jury to investigate the circumstance this afternoon. ts identity.
